Editorial Policy

Sustainability Report 2022 Editorial Policy

Nissan publishes an annual Sustainability Report as a way of sharing information on its sustainability-related activities with stakeholders. This year's report introduces Nissan's sustainability strategy Nissan Sustainability 2022 adopted in June 2018, its management, and the results achieved in fiscal 2021 in terms of three aspects (important sustainability topics): Environmental, Social and Governance, or "E," "S" and "G" for short. Report themes (important sustainability topics) are selected on the basis of potential impact on our business activities and level of interest from stakeholders. Potential impact on our business activities is evaluated with reference to previously recognized issues as well as CSR guidelines and trends and global current events inside and outside the automobile industry. Stakeholder interest is evaluated based on interviews conducted as necessary with both internal and external stakeholders and analyses provided by external consultants.

Scope of the Report

Period Covered: The report covers fiscal 2021 (April 2021 to March 2022); content that describes efforts outside this period is indicated in the respective sections.

Organization: Nissan Motor Co., Ltd., subsidiaries and affiliated companies in the Nissan Group.

Referenced Reporting Guidelines

This report has been prepared in accordance with the GRI Standards: Core option. We provide specific GRI indicators within the report as well as a GRI content index.

Date of Previous Report

Sustainability Report 2021, issued July 30, 2021.

Reporting Cycle

Annually since 2004

Forward-Looking Statements

This Sustainability Report contains forward-looking statements on Nissan's future plans and targets and related operating investment, product planning and production targets. There can be no assurance that these targets and plans will be achieved.

Achieving them will depend on many factors, including not only Nissan's activities and development but also the dynamics of the automobile industry worldwide, the global economy and changes in the global environment.
